The Governship.

Larned Cronoscope (Cot. H. Imman.)

The Iola REGISTER and some other papers in the State have mentioned the name of Capt. Henry King, of Topeka, in connection with the Governship. What a glorious Governor he would make. No one in the State would be more pleased to see him in the Executive Chair than the editor of the Cronoscope.

#### All Stuff.

18 THE REPORT THAT THE B. & O. HA WITHDRAWN ITS FAST TRAINS.

ecial Dispatch to the Kansas City Times) BALTIMORE, June 19 .- All the stuff about taking off the Baltimore and Ohio fast trains is simply so much deliberate fabrication. The B. & O. folks are not of the withdrawing kind. Not the slight-est change has been made in the fast time schedule since it was first announced last month. The first change comes on Monday, and instead of the taking off, it is the putting on of another fast train, which, leaving Chicago one morning arrives at Washington next day noon, Baltimore an hour later, four hours ahead of the fastest trains on other lines. The 5.15 P. M. train from Chicago continues to reach Washington eleven hours ahead of the 5.15 P. M. trains on competing roads. From St. Louis the B. & O. is seven hours ahead of all other lines to Washington, four to Baltimore, and reaches Philadelphia and New York at the same time. The situation is decidedly pleasing to the B. & O., and it proposes to keep it so.

#### Iola Mineral well.

The correspondent of the Topeka Com monwealth writing from Iola has the following about the Mineral Well: The readers of the Commonwealth I

presume, are familiar with the circum tances and manner of the discovery of this great wonder. I say it is a wonder for it is so unlike anything else of the kind that scientists who have visited the spot have stood with amaz sence. At a depth of 736 feet, it has for seven years, without any inter-mission whatever, discharged a stream of water an inch in diameter. Every an-alysis that has been made of this water has shown it to possess in a marked de-gree, medicinal properties, and on ac-count of the assurances that there is virtue in the water, Messrs. Acers & Son, the owners of the land and the ones who discovered the well, have, at no small expense erected buildings of sufficient capacity to accommodate a great number of guests. Pleasant cottages away from the hotel proper, where families may re-side together; good bath rooms where the luxury of a bath in mineral water, free of any cost whatever, may be indulare some of the features recom ending this resort to those who are af flicted, and who may contemplate a vis it to a health curing institution. That it possesses curative properties, hundreds of persons who have derived great benefit from the use of the water ar ready to testify.

Mothers should be very careful to see that their daughters are well wrapped up while sitting out on the pizza to see "the full moon." A coat sleeve of course is good as far as it goës, and, to tell the truth, it goes as far as it can, but at best it can cover only about to much territory.

The Washington Capital, a alashing democratic paper edited by Don Piatt, says of Garfield: "We advise the mud machine, called parties papers, that attempts at blacksoing Garfield's character will be signal failures, and will be met by protests from such eminent Democrats as the Hona Jeremiah Black, Allen Thurman, and Justice Field, who have already put themselves on record in his behalf. Garfield's purity is so thorough that it gives him a perilous in his behalf. Garfield's purity is so thorough that it gives him a perilous confidence in men, and has got him into trouble precisely as a confiding boy gets into scrapes. In that Credit Mobiler affair, for example, we know, and have so testified, that at the very time it was claimed he was scheming to enrich himself through Ames' rascality, he was 'shinning' about Washington striving to borrow \$300 to pay house rent, and so ignorant of the commonest financial process that he did not know how to negotiate an ordinary note of hand. He has not only lived in the open air, but has occupied positions where, like other leaders, he could of winked himself into millions. He holds to-day the honored position of being the only poor man among political leaders."

Mr. Earnest Ingersoll, in his interest-ing article on "The Metropolis of the Rocky Mountains," in Scribner for July, says that "in congratulating herself that Cheyenne has from one thousand five hundred to two thousand more miles of wind a month than she, Denver asserts no strong claim to being a calm locality. A good motherly woman, hating frivolity, and camping to please her children in the mouth of a canon, is what this dare-devil wind loves above all things to meet with. It holds still till she has made everything ready, and is just reaching out to set her frying-pan upon the nicely glowing coals; then— piff! and the embers are going over the top of the hill, and the whole camp de-votes itself for the rest of the evening to collecting scattered articles. There is a yarn about a miner who, being swift foot, chased his vagrant fire and held his skillet over it as it traveled. When his bacon was done he found himself fifteen

The colored frontispiece of the Domes tic Monthly for July represents costumes worn by Mesdemoiselles Bartet and Br-roda in "Daniel Rochat," at the Theatre Francais, Paris. The sketches were made in Paris by a special artist for the Do-mestic Monthly. In the literary depart-ment are three stories, namely: an in-stallment of Mr. Conway's "Bertine.', "A Beautiful Girl," by Eather Searle Kenneth, and "Norah" by Lucy Marion Blinn. Mary Ainge de Vere and Mrs. Merrighi contribute each a poem, and there is a sketch of the Theatre Francis and its organization apropos of the col-ored frontispiece. Eben E. Rexford con-tributes a timely paper on "The Garden in Midsummer," and the announcement is made of the successful competitors for the price officed in the Tune the prizes offered in the June number. The Domestic Monthly is published by Blake & Company, corner Broadway and 14th Street, New York, at \$1.50 per year inclusive of pattern premium. Specimen copies 15 cents.

The Modern Tantalus

Is altogether the opposite of his great namesake. The latter as a punishment from the gods for an ands, was c to perpetual thirst, and immovably fixed in wa ter to his chin. What must have been his feel-ings to see that fluid, which more than all the world besides, he wanted, within his reach, and he powerless to drink it? What a refinement of cruelty must be such a punishment. How differ-ent our feelings to his antitype, who though suffering from sickness all the time, having mean deliberately neglects using the remedies to his recovery. The majority of sickness arises from the torpidity of the liver, and can be dissip and prevented by the use of that valuable clixir tonic the Home Stomach Bitters.
